

Information will be coming home regarding the 7th grade Duke TIP Program. Students were identified as qualifying for the program by being enrolled in Pre-AP math and/or Pre-AP language arts. Please keep in mind; this is a voluntary/optional program. If your child participates, he/she will be testing with juniors and seniors in high school.

If you would like your child to participate in this program and your child was not identified by HCMS, please have your child come by the Counseling Office to get the information.
